

Supports Animal Health

For optimal performance, animals need to feel healthy, be free of stress and be able to fully metabolize feed and nutrients. Penergetic t supports animal health.

A change in the quality of animal excrement can result in the reduction of emissions of harmful gases and barn odours, which can be beneficial for animals. To optimize treatment of slurry/manure used penergetic g or k.

Penergetic t is **OMRI listed** so is suitable for use in organic and transitional farming as well as in conventional farming operations.

External	mix 10 g with 100 ml of udder cream	
Penergetic t for calves and piglets		
Penergetic t for Calves	2 g per day 2 to 3 times per day	2 g per day once per day
Penergetic t for Piglets	2 g twice daily	20 g/ton liquid feed or 50 g/ton dry feed

COMPLEMENTARY PRODUCTS:

To improve the quality of livestock excrement used penergetic t in conjunction with penergetic k and penergetic g. These products activate aerobic treatment, promote the breakdown of solid and liquid manures, improve barn (and lagoon) odours and reduce the incidence of flies and other pests. The AquaKat can be used to enhance the quality of animals' drinking water.
